I hired Steve to perform at my son's birthday party and I found Steve to be extremely professional and very easy to work with. More importantly, the kids had a ball. He completely entertained the kids and my son had so much fun participating in the show. I was called by two moms a few days after the party to tell me what a great time that their children had and wanted to know who I had hired. I would absolutely love to have Steve perform again in my home.
